How to control techniques attaching women
Through books, you can learn anything you want to know about sex, love, and relationships. This book is no exception. It is a guide to the art of seduction, and it is one of the most powerful tools you can have in your arsenal. It will teach you how to attract the women of your dreams, and how to keep them hooked on you. This is not just a book about sex, it is a book about power. It is a book that will change your life, and it is one that you should read now.

What happened there? Hey, it's Jimmy Barnes here, standing in for Derek Rake in this blog post today. For others, well it may take quite a few repeated Fractionation exposures before they give in. Now some women will react immediately when you give them these emotional roller coaster rides. Thank you for understanding. And yet, here's the undeniable truth: If you have mastered Fractionation (or other Mind Control techniques), you are in the position to completely exploit these particular weaknesses in women's minds and make her totally subservient, letting you have anything you desire from her. Once you have seen the Fractionation method in action, it can be extremely tempting to go too far since it obviously works so well. Makes sense, right? How? Imagine that she is utterly and completely in love with you. In fact, with to ex-girlfriends or wives, the Fractionation technique works even better than it does on new women! Do you know why? Once again we want to get her describing events in as vivid a way as they can possibly get. Includes every detail in a handy 12-page PDF, with an easy-follow, checklist format AND a bonus trick with Mind Control using hypnosis that's NOT included in the article you're currently reading. And you know what's the easiest method (by far) to take any woman on an emotional roller coaster ride? Yeah, well guessed: using Fractionation, Junk! Now listen up: There's no place of mine to discuss any of the morality behind using Mind Control to psychologically manipulate women. Nobody can ACT ON stuff they can't actually REMEMBER! I don't need to remind you that TAKING ACTION means absolutely everything if you're going to get better dealing with women. Now tell me how THAT makes you feel? Done downloading the Checklist? Your moral standards are none of my concern. I mean, I don't care if you know the very best seduction system the world has ever seen about as useful as an ashtray on a motorcycle if you never USE it, am I right? This is because not everyone is accepted, and we reserve the right not to give access to the Masterclass to everyone. In fact, it's about as removed from the usual Pickup Artist crap as you can get. Let me tell you the secret sauce: All of those things—the TV shows, the books, and the shitty songs—are designed to do just one thing: To take you on that emotional ride. That's right: surrendering to the dominance and authority of a man is hardwired into their genes. However, by using Fractionation you will tremendously improve the chances of success. See how that works? That makes it much simpler to re-build your rapport with her and enhance the attraction. Easy, right? And compared to Mind Control, Pickup Artists are focused on trivial stuff like lame pickup lines, how to approach women and how to dress up like a peacock to catch her eye. Warning! Now at this point I gotta warn you: Before heading off to use all you've learned about Fractionation on a special someone who you need to seduce, remember this: Fractionation does have one downside, and that's this: If used indiscriminately and carelessly, these Mind Control methods are well known to inflict harm on a woman's psyche often permanently. You'll be able to see her lighten up, and that's when you hit home with your sad story, bringing her down again. So this is the score: I've made it my life's work to hunt down the best, most foolproof way to have women fall head over heels for me. (There's also an Action Checklist and Cheat Sheet you'll be getting from me—more on that below.) Have I got you interested? Here's your answer: Each and every woman's brain is programmed to get ADDICTED to a number of psychological triggers. Can you describe to me exactly what you were feeling then? Absolutely do anything (and I mean, anything) to please you, to make you fall in love with her too. Because of this, I did a simple action checklist that shows everything that it is necessary to understand about the fraction. We do not do sugar things here ... win a ex it can be rather difficult ... especially when you had a great fight with her before breaking. Once you have the benefits in the masterclass, the rest of the article will be more easily digestible. Yes, I thought so ... well, how does it make you feel if I let you know that this could be a real scenario in a couple of weeks of time? If someone else wants the list of accounts, ask them to come here. Now I see the forks and torches of the feminists Marcianti out for the blood that is coming to the hill now! But really, who cares? And yes, it works even if it became a little emotionally not available. It doesn't matter, you have to be ecstatic! Why? (Listen, do not sweat him ä c "You can only invent something if you have what you have to do!) Now everything you have to do is rinse, then repeat. Even those love songs of pussies like that Michael Buble. To start, try the following (you can use it word for word): Hey, do you remember that time you feel really happy, totally blessed? How does the fraction from the knowledge of Mind Control work that you got from Derek Masterclass, here is the fast test ä c "why it is very effective in pickup artists tricks? Here is your first step to split any woman: do it to remember and describe some accidents from her past who made her happy. Does it seem fantastic to you? Good! Now ... See that same woman in front of you, on your knees, and look at you with a look that she tells you that she is aneoging for your approval, for your devotion. Now you've been riding at that bottom of the roller coaster. This is absolutely vital, so pay attention! Here is... be happy, women are naturally wired into their brains wanting to be subjected to a man. Fucking artists, more like ... but you need to know that the fractionation is absolutely not a trick or a pickup line for artists. In your head, I want you to imagine a woman you want to seduce. Remember, take paper and pen at your fingertips and take many notes! Once you have watched the masterclass, you can continue with our guide. Fractionation is really a state-of-the-art mental system that is totally different from anything you may have met before. Now you think I'm right there with you, with that incredible smile... do you have that image in your mind? Before I do, I just need you to do a little mental exercise for me. And then what happened? One thing you need to know about female psychology, however, before digging deep into fractionation, there is an absolutely fundamental principle on women you need to know. Why made you so happy? You know, those "Tricks" PUAs that are on the Internet, promise the universe, and they can't always invent the goods. So, whenever you need to use the mental fraction control technique to seduce a woman, all you have to do is follow each step in the checklist in the document and will guide you through the whole process. Roba powerful enough!
